Career Objective

Final-year Computer Science undergraduate with a strong foundation in Python, full-stack web development, and problem solving, seeking to apply hands-on project experience and core CS fundamentals to deliver reliable, real-world software solutions from day one.

Education

B. Tech, Computer Science Engineering – R.G.P.V University,
Jabalpur | CGPA: 7.05 — 2023 – 2027 (Expected)

Higher Secondary Education (Class 12th) — 2023
Percent: 62%

Secondary Education (Class 10th) — 2021
Percent: 56%

Technical Skills

Programming Languages: Python, JavaScript (ES6+)

Frontend: HTML5, CSS3, React.js, Responsive Web Design

Backend & Database: Node.js, Express.js, PostgreSQL, SQL

Tools & Platforms: Git, GitHub, Vercel

Concepts: Object-Oriented Programming, Data Structures & Algorithms, DBMS, API Integration, AI Integration (Gemini API)

Professional Skills: Problem Solving, Team Collaboration, Communication

Projects

AI Resume Parser & Analyzer – Full-Stack Web Application
React.js, Node.js, Express.js, PostgreSQL, Gemini API

- Built a full-stack web application that parses uploaded PDF resumes, extracts their text, and compares it against a job description to generate an ATS match score.
- Designed RESTful APIs with Express.js to handle PDF uploads, text extraction, AI analysis requests, and saving reports in PostgreSQL.
- Integrated the Gemini API to identify matching and missing skills, strengths, weaknesses, and improvement suggestions, with the API key secured on the backend.
- Developed a React dashboard to view the ATS score and analysis results, along with saved past reports.

Certifications

- CCNA: Introduction to Networks
- Cloud Security Fundamentals
- Introduction to Modern AI
